Opponents fought a bitter battle, however, over reenactment of selective service.

Rep. Allen, (R) Ill., opened the debate with a slashing attack upon the military "brass and braid" who, he charged, were the motivating force behind renewal of selective service.

Allen made his charge as the House opened historic debate over re-enactment of the Selective Service Act.

The Republican leader charged that the only supporters of the two year draft are "the brass and braid, a few international newspapers, and a few top officers of the American Legion."

Thousands Now Regaining Old Time Pep, Vigor and Drive By Releasing Vibrant Energy To Every Muscle, Fibre, Cell

Overwork, undue worry, and lack of certain foods often reduces the red-blood strength—and starved, weak, puny blood just hasn't the power to keep up your energy and drive.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains received.

#### Leaders Flock To Philly, All Sure Of Victory

PHILADELPHIA, June 15-GOP leaders and delegates from every section of the nation flocked into Philadelphia today in advance of next week's Repubican national convention.

They found headquarters for three major presidential candidates- Gov. Thomas E. Dewey, Sen. Robert A. Taft and Harold E Stassen-already set up and issuing optimistic bulletins.

Rep. Clarence J. Brown of Ohio, campaign manager for Taft, claimed 312 delegates are committed to the Ohio solon.

Brown predicted that Taft's strength would increase after early balloting and that the nomination would come 'somewhere between the fourth and seventh ballots."

A similar statement, without a numerical forecast, came from Herbert Brownell Jr. of New

#### VFW Order Books Talent Show As Benefit To Hospital Fund

Officials of Circleville Military Order of the Cootie, an affiliate of the Veterans of Foreign Wars, aid Tuesday the order would sponsor a radio impersonation show here for the benefit of the VFW's hospital fund.

Cootie chieftains said that Miss Marie Nelson of Kansas City, who is associated with the national VFW in promotion of the impersonation show, had arrived and will direct the venture.

The show is to be made up of "all home talent" and begins with a "babyland number."

Radio impersonations are to 'Dr. I. Q." "Breakfast in Hollywood," the "Quiz Kids" and a barn dance scene.

Special dance numbers also are on the proposed show which is entitled "Fun for You." It is booked to be given June 24 and 25 in Memorial Hall.

THAT THE RUSSIANS have developed jet planes designed for faster than sound flight is reported to have been proved by motion picture films smuggled out of Russia. Above are drawings declared to be enlargements of the films. At top is an Ilyushin four-jet bomber, one of the most important of USSR types reported under development. Below is a fighter model, patterned after the German jet DFS 346, which is supposed to have attained a speed of 748-miles-per-hour. This is faster than the speed of sound. ## 17-Year Locust Expected Only In Pickaway Panhandle

### Ag Agent Cites Best Insecticides

Timber Cuts Destroy Pests

Little more than the southeastern panhandle of Pickaway County is expected to be affected by any 17-year locust siege

This was the prediction of T. H. Parks, extension entomologist of Ohio State university, in a letter to L. A. Best, Pickaway County agriculture

Most heavily affected areas will be the 32 counties east of Pickaway County extending from Huron to Jackson Counties and east to Lake, Jefferson and Monroe Counties, the state survey shows.

Best has warned farmers here that this year's locust brood is not to be confused with the attack which is scheduled to come to Western Ohio in 1953. The latter brood will not contain as high a cicada population as the

soon as the first insects appear. The insecticide is designed to kill the young locusts while they rest on trunks and lower branches and before they move away.

Best said spraying will be more effective than dusting by using eight pounds of 50 percent wettable DDT per 100 gallons of water or six and onehalf ounces per five gallon.

In number, there are four broods of locusts in Ohio, all of Michael of Romania and his yield of 210 tons, 70 below last which are disappearing due to bride, the former Princess Anne year.

By removing timber, the locust food supply is destroyed resulting in the death of many partially young insects.

Records show in the hill country where timber has been undisturbed, the periodical cicada apparently is as abundant as it wedding last week took place in
